COIT 11222 – Visual Programming

Tutorials:  Week 12

Author:  Mike O’Malley (Course Coordinator)

Questions

There are NO formal tutorial questions this week.

Please complete these Activities:

1. Makes sure you read and follow the advice on the following slides in Week 11’s Lecture Material:
   - Next Week = Week 12, Practice Exam, and Exam Hints and Tips.
   - Week 13 + 14 (Revision and Exams)

2. Revise for the exam – see Exam Hints and Tips and work through all Practice Exam(s) on the Course WEB Site.

3. Complete any Tutorial Questions for prior weeks that you have not already completed.

5. Review your work for all Tutorial Questions.

6. Review the work you did for both Assignments.

7. Also, please complete the Student Evaluations of Teaching – which you get to by logging on to MyCQU, and then (above the list of courses you are enrolled in), click the “Have Your Say – Student Survey” link. A list of “Available Surveys” will be displayed. Please complete the one for this course (and any others you feel like doing).
